

WHAT IS QUANTUM BIOFEEDBACK?

What is Quantum Biofeedback and How Can It Help Me?

- *Every cell, organ, meridian and emotion have a characteristic electro-magnetic signature. Illness can start as an energetic disturbance, which can be detected by the QUEX-ED. The body's subtle energy system is an early warning system. Imbalances in the body's subtle energies show up much earlier than overt physical disease.*
- **How often have you complained of symptoms, for which all the tests come back normal?** By the time blood tests and X-rays reveal abnormalities, the disease process may be quite far advanced. Healing can often only be addressed by harmonizing subtle energies.

All aspects of our lives [physical health and illness, emotions, thoughts] operate according to the laws of quantum physics. We can now all have access to the power of energetic healing, combined with ancient wisdom and modern technology.

What does the QUEX-ED do?

The QUEX-ED is a computerized system that both tests and balances the body at a subtle energy level. It integrates the sciences of mathematics, quantum physics, fractal dynamics, subspace theory, electronics, and computer programming. The therapies include the following modalities: naturopathy, homeopathy, acupuncture, chiropractic, energetic medicine, psychology, aromatherapy, reflexology, colour therapy, Neuro-Linguistic Programming, biofeedback and Rife Resonator. It also incorporates knowledge of metaphysical subjects to bring a unique synergistic perspective to natural healing.

The QUEX-ED measures the unconsciousness of the client and provides an interface between the conscious and unconscious minds. The unconscious monitors the total complexity of current and past life experience. Since the conscious mind is aware of only a tiny fraction of this totality of exposure, it is therefore not a reliable source of information on life or disease.

The device gathers bio-energetic data from the body via fifty-five parameters simultaneously. This happens at biological speed, which is 1/100th second for each stimulus. This means that thousands of items can be screened for reaction from the body in a few minutes.

QUEX-ED Detects:

- Allergens, Emotions, Meridians, Amino Acids, Fatty EEG, ECGMinerals, Animal Dis-eases, Flower Essences, Muscles, Aromatherapy Oils, Foods, Organ Sarcodes, Bacteria, Fungi, Parasites, Blood Chemistry, Geopathic Stress, Psychic Energies, Bones, Herbs, Prions, Candida, Homeopathic: Isodes, Nosodes, Classical, Combination; Spiritual Energies, Chakras, Toxins, Chromosomes, Urine Chemistry, Dental Dis-eases & Products, Venoms, Digestion, Hormones, Viruses, Dis-eases, Ligaments, Vitamins, Drugs, Miasmas, Worms, EEG, ECG, Brain Wave...and more.

In addition, the QUEX-ED has the capacity to deliver corrective energies to help the body establish energetic balance for health and wellbeing. This includes locating and unblocking the flow of energy, zapping pathogens, biofeedback, stimulating repair processes, stimulating detoxification, desensitizing allergies, reducing stress, balancing emotions, balancing chakras and more.

Imbalances at the energetic or subtle energy level can be an early warning system regarding health status. If imbalances go uncorrected, eventually physical symptoms will erupt, and health problems and disease develop. As well as being an early system of prevention, keeping the subtle energies balanced helps to restore physical energy.

The QUEX-ED communicates with the body to determine what energy imbalances are most affecting personal health; physical, mental and emotional concerns. It is calibrated to measure the body's subtle reactions to a database of biological, psychological, and medical items in electro-magnetic form. The sensitivity is set so finely that it picks up the earliest sign of dis-ease [see Integrative Medicine] and distress. The information is then prioritized to help the practitioner zero-in on the body's current specific needs. The program offers information specific to subtle energies – emotional and mental stresses, nutritional needs, toxins, food sensitivities, digestive and elimination needs, etc. The values shown represent an 85% probability that the body has reacted to that particular signal.

Evaluation and Therapy:

For the best results, a **highly trained practitioner** needs to evaluate these readings. By analyzing recurring patterns, he/she will be able to give information about issues which may be below conscious recognition, such as mental and emotional stresses, nutritional suggestions, food sensitivities, digestive and elimination needs etc. The energetic imbalances are identified by the QUEX-ED in order of the body's priorities. Therapy is thus like peeling an onion; each session will work with the outermost layer. The QUEX-ED applies the appropriate frequencies to help correct the imbalances and allow the body to shift gears into a state of greater health and vitality. The subconscious indicates which therapy or remedies are most appropriate for each individual. The practitioner will recommend nutritional supplements and lifestyle changes, based on their ability to boost the body's energy fields. The practitioner will apply his/her clinical judgement to determine the core illness, frequency of therapy needed, and strategy for subsequent sessions.

QUEX-ED Therapies:

Autofocus Therapies – Acupuncture, Chakra, Chiropractic, Color, Rife, Trivector (Bicom/Mora), Spiritual Healing, Biofeedback.

- **Specialist** – Acupuncture, Cranial-Sacral, Iridology, Brain Wave, Allergen De-Sensitization, Fat loss, TMJ, Eye, Hearing, Cholesterol, Sport, Beauty, Detoxification, Aging, Dental.

- **Emotional & Mental** – NLP Individual, NLP Group, NLP Family, Gestalt, Neural Net Stabilization, Emotional Growth, Unconscious Reactivity, Electro Hypnosis.
- **Stress** – Music, Biofeedback, EEG.
- **Focused** – Degeneration, Injury, Pain, Metabolic Repair, Hormonal, Neurological, Relaxation & Sleep, Digestive, Feel Good, Oxygenation, Muscle Building, Flexibility, Co-ordination, Immune Stimulation, Stem Cell Stimulation, Chronic Fatigue, Anti-Inflammation, Fibrosis, Intellect Stimulation, Psychic Abilities, Stim Blood Sugar, Parasympathetic, Sympathetic and Autonomic Nervous System balance and repair.
- **Testing** – Test samples including hair, saliva, urine, skin, semen, supplements.

➤ *It is important to understand that the healing, which begins immediately, may, or may not, be overtly perceptible for a while. The healing process may begin subtly on the inside, with small stimuli starting cascade reactions, which result in significant changes. While it is possible that some acute imbalances may be corrected in one session, a series of sessions will generally tend to be most beneficial.*

In order to get the most out of a QUEX-ED session the client will need to accept responsibility for his/her health and be prepared to implement the recommended lifestyle changes.

Energetic Medicine Flow of Health and Therapy:

- Identify and then remove the cause of stress. The client must be prepared to take responsibility for his/her illness.
- Repair any damaged organs.
- Clear blockages to flow of energy in the body.
- Reduce symptoms with natural methods.
- Correct constitutional make-up, or tendencies of the client.

How does the QUEX-ED compare to other computerized electro-dermal screening devices?

Unlike other devices, the QUEX-ED does not rely on a “point probe”; therefore, the practitioner cannot, consciously or unconsciously, influence the results. Whereas most devices measure skin resistance only, the QUEX-ED uses 3 dimensional measurements to produce a 3-D analysis.

The QUEX-ED is very fast, testing more than 10,000 reactivity items and scoring the results, in 3-4 minutes. The rest of the consultation time is spent analyzing and treating.

The QUEX-ED has built in mechanisms for auto-regulating, auto-adjusting and safety shut-off, so accidental over-treatment is avoided. It has a whole person focus, and communicates on the spiritual, mental, emotional, and physical levels.

The QUEX-ED is the most advanced system of analysis and therapy available in energetic medicine today. It is capable of processing over 60 million bits of data to help detect stressors

in the body all within 3 minutes to save the practitioner valuable time in coming up with your analysis and therapy plan.

Unlike any other therapy device on the market, the QUEX-ED has a built-in mechanism that monitors the subject during the session. This ensures the individuality of each test and therapeutic session. Constant feedback features allow the QUEX-ED to change the settings of amplification and frequencies during any of the therapies to ensure that the needs of the subject are always taken into consideration. This allows the device to cease therapy automatically as soon as the subject's reactions show that maximum effectiveness has been achieved; thus, providing maximum safety.

How many sessions are needed depends upon 2 factors:

1. The available reserves of the clients' Life Force determine the potential for self-healing.
2. The severity of the symptoms, or depth of the dis-ease process.

While discussing the results of your first session on the QUEX-ED, the practitioner will recommend and discuss your individual optimum therapy protocol. This may range from once a month for 2-3 months, for a simple condition in an otherwise healthy person; to weekly sessions for 2-3 months for seriously ill clients with impaired immunity, such as cancer or chronic fatigue syndrome. Sessions range from one to two and a half hours in length.

How QUEX-ED Works:

- *The Quantum QUEX-ED scans the client's body much like a virus-scan on a computer, looking for everything from viruses, bacteria, deficiencies, weaknesses, allergies, abnormalities, and food sensitivities. It reports on the biological reactivity and resonance in your body and indicates needs, dysfunctions, and vulnerabilities.*

Based on over 30 years of research in bio-energetic and bio-resonance medicine, the QUEX-ED is a highly sophisticated program with sensors attached by wires to the ankles, wrists and forehead that measure and feed resonance information between the QUEX-ED and the client. The ionic exchanges of reaction that take place in your body and brain (at 1/100 of a second) are measured as energetic components in your body. With a feedback loop, the device measures your resonance pulse and sends back an alternate pulse to which your body responds. In turn, your body alters its own reactance pulse, thus creating a change. For example, from pain to no pain, malignant to benign, compulsive to anxiety-free, imbalance to balance. Due to the 'autofocus' function, the QUEX-ED can adjust bio-feedback therapies to ensure and constantly adjust the correct settings during therapy. The QUEX-ED is an Evoked Potential Bio-Feedback Device and works naturopathically to stimulate and harness the tremendous capacity of the human system for self-healing. This function eliminates the need for expert knowledge about rife, bio-com and electro-acupuncture.

QUEX-ED Specifications:

13 measurement points; wrists, ankles, 9 on head, Measures 55 Parameters, Digital accuracy, High Sensitivity, Auto focusing, Pre-diagnostics and preset therapy programs.

About the Inventor, Professor Bill Nelson:

Born in the United States, Professor William Nelson who now resides in Budapest, Hungary, is a world-renowned scientist, international lecturer, and inventor of the quantum biofeedback **SCIO/EDUCTOR AND QUEX-ED** system. His areas of professional expertise include:

- Quantum biology
- Energetic medicine
- Homeopathy
- Alternative medicine
- Naturopathy

The following is a brief chronological history of some of Professor Nelson's achievements:

1969 : Professor Nelson works on the Apollo project where he learns the value of:

- Electronics and tri-vector shape theories of topology.
- The Gyro Navigation system teaches him about the multiple vectors of shape.
- His work on Apollo 13 is essential in helping the astronauts re-set the navigation system for re-entry.

1976: Professor Nelson's psychic research and quantum sub-space theory leads to international acclaim.

- In Youngstown, Ohio the first studies of reactivity show the power of the volts and amperage of the body reactivity and how inaccurate skin resistance measurements are.
- Professor Nelson teaches mathematics and the value of statistics, Fourier analysis and vector calculus.

1979 : Professor Nelson learns the value of energetic medicine.

- Medication testing as reactivity.
- Energy flow as potential.
- Fractal complex systems.

Voltage, amperage, resonant frequencies, capacitance, inductance and reactance are far superior values for energetic medicine. Biological speeds of reactivity is closer to 1/100th of a second.

1982 : Professor Nelson develops the first Tri-vector system for diagnosis.

- Assembles the Tri-vector analysis on 1,000's of homeopathic.
- Measures the resonant frequencies of the acupuncture points.
- Develops the Fourier analysis algorithms for reactivity.
- Begins to put together the puzzle of a tri-vector cybernetic link

1989 : Professor Nelson gets the EPFX/SCIO system registered with the U.S.A. FDA as a biofeedback unit without therapy.

1992 : The U.S.A. FDA informs Professor Nelson that they have limits on future registration.

- You can register a device to detect the abnormalities of the body electric and to treat the body electric.
- But you cannot register a device that can detect electric abnormalities and then correct them at biological speeds.

1993 : To further his dream, Professor Nelson moves to Hungary. Here he works with Dr. Gabor Lednyinsky but only shares part of his research.

1995: Professor Nelson's dream comes true. He solves the vector problem and therefore devises a device without the analogue to digital conversion. This results in a cheaper device with far more accuracy than conventional analogue converters. A Cybernetic link is possible. A device must be made to calibrate the patient's reactance speed, reactivity, and test 1,000's of items at biological speeds. The device must be able to perform energetic medicine such as Rife, Bicom Mora, Bio-resonance, etc. A Cybernetic link is established between the test and patient. This allows for auto-focusing therapy and self-adjustment treatment for maximum results and efficiency.

Apart from 5 Patents in Energetic Medicine, there are several proprietary secrets known only to Professor Bill Nelson:

- Subspace Link.
- Body digital to computer digital link.
- Cybernetic link of diagnosis to treatment auto focus bio-resonance.
- Fractal analysis of Xrroid data.
- Fourier analysis algorithms for bio-resonance data analysis.
- Tri-vector system – to mention just a few.
